Noah Dirck

Full-Stack Developer Resume Atlanta, GA | (847) 420-8304

https://github.com/Niche-Quiche| www.linkedin.com/in/noah-dirck | noah.dirck@gmail.com

I am an early career full-stack developer. I have a particular interest in front-end development and have also had exposure to back-end development. I thrive in a collaborative environment where I am able to learn from others. I am a natural problem solver who gravitates toward challenging projects. I am eager to expand my skills and to add value to my team.

Software Development Skills

HTML, CSS, SASS, Git, Python, JavaScript, Node.js, Express, React, Redux, Sequelize, RESTful API, PostgreSQL

Education

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA November 2021-March 2022

Full-stack software development training program where I learned to use a variety of languages such as JavaScript,
Python, SQL. The course has also taught me how to use front-end frameworks like React/Redux as well as server-side technologies like Node.js, Express, and Postman.

Georgia State University | B.A. in Philosophy, Minor in History | August 2018 – December 2020

• Studied metaphysics, epistemology, ethics, and logic with a focus on 18th & 19th-century skepticism, as well as 20th-century phenomenology.

Personal Portfolio:https://noah-dirck.netlify.app/ February 2021 - React, Redux, and Framer Motion

Created an interactive portfolio designed with smooth animations

MnZ Travel: https://mnz-travel.netlify.app/ December 2021 - HTML, CSS, Bootstrap, and vanilla JavaScript

- My team and I built a website for film aficionados to explore filming locations from their favorite movies and access real-time webcam feed from the locations.
 - Utilized several APIs to render information on the front end. Designed home page, search page, and built the map page which loads the location markers.

Trivia Game: https://github.com/Niche-Quiche/Backend Project January 2022 - PostgresSQL and Sequelize

- My team and I built a trivia game using the Open Trivia Database API, users can select from a variety of categories and difficulties. Users' scores and game ratings are saved and sent to our database
 - Mapped and executed layout design, database initialization, and integrated an interactive front-end to connect to our back-end.

Work Experience:

Logistics Solutions Intern Veritiv Corporation - Peachtree Corners, GA September 2016 to December 2016

- Interacted daily with Veritiv Logistics Solutions (VLS) customers
- Assisted in the selection of truckload and other third-party carriers
- Contributed to the team's accountability for meeting posted load objectives for Veritiv and 3PL loads
- Updated spreadsheets with incoming data on carriers and delivery times
- Communicated effectively with carriers, Veritiv customers, and corporate logistics group
- Provided tracking updates to customers when necessary
- Identified cost-saving opportunities within the supply chain

Front of House Team Member Saus - Restaurant, Boston, MA, Summer of 2021

- Worked in a high volume environment that valued speed in service, while maintaining standards for hospitality
- Provided excellent customer service at the Point of Sale, handled transactions
- Adapted quickly and shifted between sandwich station, fry station, and dish pit to serve the team in any capacity
